The ultra-compact T20-8 from HiVi is an excellent choice for smaller designs such as portable systems, sound bars, and bookshelf speakers. The powerful neodymium motor allows this tweeter to have a faceplate or only 2" diameter while keeping sensitivity up to 89 dB.

Key Features

- Only 2" diameter to fit into the tightest locations
- Extremely smooth response from 4,000 to over 20,000 Hz
- Powerful neodymium motor keeps depth under 1/2"
- 3/4" soft dome delivers smooth response with minimal resonances
